Building and Styling a Web Project Using HTML, CSS and Bootstrap

Project Overview

Project Start Date: 13th January 2025
Project End Date: 6th April 2025

This document provides a detailed outline of tasks for each phase of the project. Students are expected to complete all tasks within the specified phases.

You will create a complete web project from scratch in three phases:

1. **Phase 1 (HTML): Weeks 1 to 3**
   Focus on building the structure and content of the project using only HTML.
2. **Phase 2 (CSS): Weeks 4 to 7**
   Style and beautify the HTML project using CSS to create a visually appealing design.
3. **Phase 3 (Bootstrap): Weeks 8 to 12**
   Enhance the project using Bootstrap components and utilities for responsive and professional design.

Important Note to Students

Dear Students,

To assist you in developing your project phase by phase, the following resources have been provided:

1. **Page Layout Images:**
   o These images illustrate the expected layout of each webpage for phase - 1(HTML).
   o Use these layout images as visual guides to structure and style your project accordingly.
2. **Project Images:**
   o A collection of images related to **Culture**, **Landmarks**, **Cuisine**, etc., for use in your project.
   o Add these images to your webpages to make them visually appealing.
